

# Attribuer des droits à un utilisateur

Pour disposer du droit administrateur vous devez disposer obligatoirement d'une licence Business ou Entreprise. Lorsque vous disposez de cette licence, vous pouvez accorder le droit administrateur ou vente à un utilisateur.

The screenshot shows the DISCOUNT TEC interface. On the left is a navigation menu with 'My company' (1), 'My subscriptions', and 'My customers'. The main area has tabs for 'Information', 'Members' (2), 'Equipment', and 'Support'. The 'Members' tab shows a table with columns 'Name', 'License', 'Phone', and 'Rights'. Two members are listed: Brian Mattson (Essential) and Louise Wright (Enterprise). A context menu for Brian Mattson shows 'Member information' (3) and 'Remove member'. An arrow points to the 'Rights' tab for Brian Mattson, which has 'Enterprise' checked under 'Licenses' (labeled 'Licence Entreprise') and 'Administration rights' and 'Sell' unchecked. A callout says 'Cocher les cases si vous souhaitez donner les droits : admin/vente à cette utilisateur'. Another arrow points to the 'SUBSCRIPTIONS' table, which has columns 'Paying offers', 'Billed', 'My company', 'My customers', and 'Status'. A row shows 'Enterprise' (12), '8', and 'Subscribed', with the '12' circled (2). A callout says '2 membres de mon entreprise disposent d'une licence Entreprise'.
